## / Search

### June 16, 2026. Now in Prod: Virtual Care Shortcut

We have enhanced our search configuration options to better support virtual care models. You can now configure shortcuts and links to route members directly to the **Virtual Care** tab.

Use **shortcuts to link members straight to the Virtual Care tab**, preventing the confusion of landing on an empty "In-Person" results page.

### What's new

- **Direct Access to Virtual Care:** You can now configure a shortcut to route members directly to the Virtual Care tab instead of the In-Person tab.
- **Comprehensive Virtual View:** When members click this deep link they will instantly see **all available results** under the Virtual Care tab, giving them a complete view of their remote care options right away.

### How to enable and test this feature

This feature is available for testing in your User Acceptance Testing (UAT) environment right now.

### To configure this for testing

1. Determine the exact language and wording you would like to display on the shortcut.
2. Contact your **Customer Success Partner/Support Team** and submit your request.

**Register For June 24th Medicare Plan Finder Information Session.**

## / July Roundtable

Join our product and customer success experts **Wednesday, July 15th, at 3:00 PM EST/12:00 PM PST,** for the July Roundtable to hear about upcoming enhancements, roadmap highlights, and opportunities.
Looking forward to seeing you there! The recording will be distributed here.

**Register Now!**
