April 23, 2026. Coming Soon to Production: Enhanced Search Cards
We are excited to announce that we are deploying enhanced search cards to production for all customers on **April 30, 2026**.

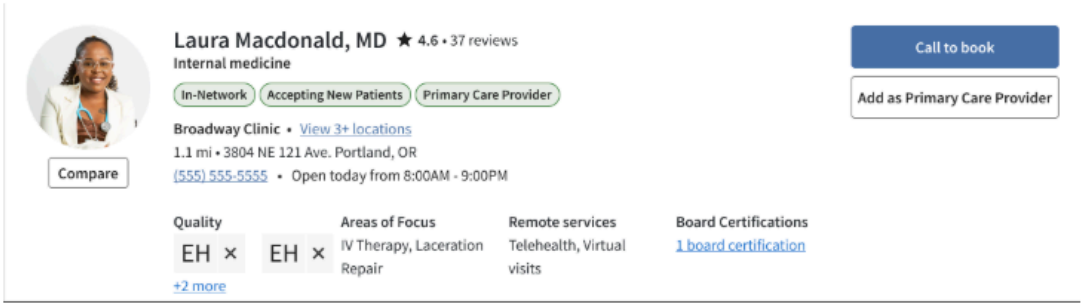

Since our preview period began, we have been actively incorporating your feedback into our roadmap to ensure the best possible experience for your members. We are deploying the most critical enhancements **in UAT by Monday, April 27**, allowing you to preview these final refinements prior to the production launch.

Key Changes:

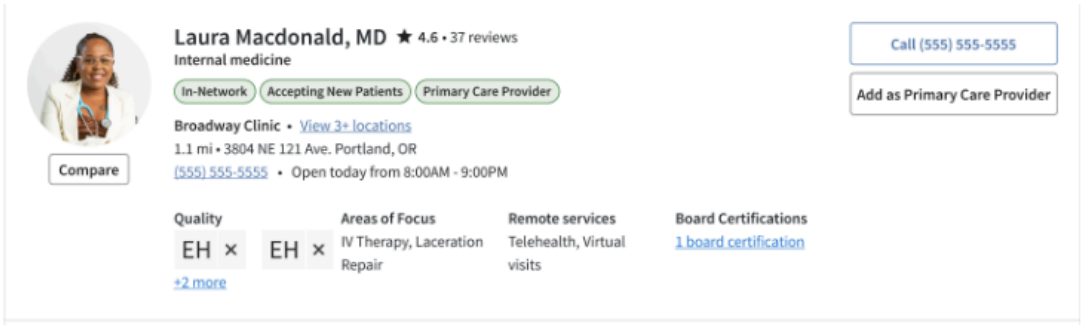

- **Multiple Specialties Supported in Header:** To provide a more comprehensive view of provider expertise, we have updated the header to support the display of multiple specialties instead of just one.
- **Updated Card Loading State:** We have refined the loading state of the search cards to ensure a smoother, more polished visual transition as results appear for the member.
- **"Call to Book" Redesign:** We have updated the button text to surface the provider's phone number directly instead of generic "Call to Book" text, making it significantly easier for desktop users to take action. This design ensures the phone number is clearly differentiated from other booking calls-to-action in the member experience.

This feature will be deployed to Production on April 30, 2026. Continue to work with your customer success partner on timelines and feedback.

April 23, 2026. UAT Search By Plan Menu UI Update

Please complete your review of the Search By Plan (SBP) UI in UAT. This is your opportunity to verify that your specific verbiage and workflows appear correctly before we finalize the Production rollout.

- **Audit:** Review your custom experience in UAT today.
- **Verify:** Ensure all migrated custom text and new UI elements meet your requirements.
- **Submit:** Provide any final feedback on UAT to your **Customer Success Partner** immediately by tomorrow 4/24 EOD.

See the timeline below and last week's release note for more information.
Reach out to your customer success partner with any questions or feedback.

Timeline:

Date	Milestone	Status
Tuesday, April 14	UI upgrade deployed to all **UAT** environments.	**Complete**
Monday, April 20 (EOD)	Kyruus completes migration of existing custom verbiage. *This applies only to a subset of clients who had previously customized the text within their current SBP workflow experience.**	**Complete**
Tuesday, April 21	Feedback window opens for additional language/verbiage requests.	**Complete**
10 Business Days Pre-Release	"Coming Soon" Thursday Release Note sent via email.	To Be Scheduled
Post 10 Business Day Notification Release	**"Production Go-Live"** Thursday Release Note sent via email.	To Be Scheduled

/ Compliance

April 22, 2026. CMS Medicare Plan Finder Phase II Information Session

As we transition into this next phase for Contract Year 2027, there are critical milestones and technical requirements your team needs to address to remain compliant with CMS standards.

What is Phase 2?

CMS now requires all payers offering individual Medicare Advantage (MA) plans (qualifications here) to provide directory data through machine-readable formats. RevSpring is supporting this requirement using a **FHIR-based JSON file approach**. We will generate Index File URLs that CMS will crawl daily to ensure the MPF tool remains accurate for beneficiaries and caregivers.

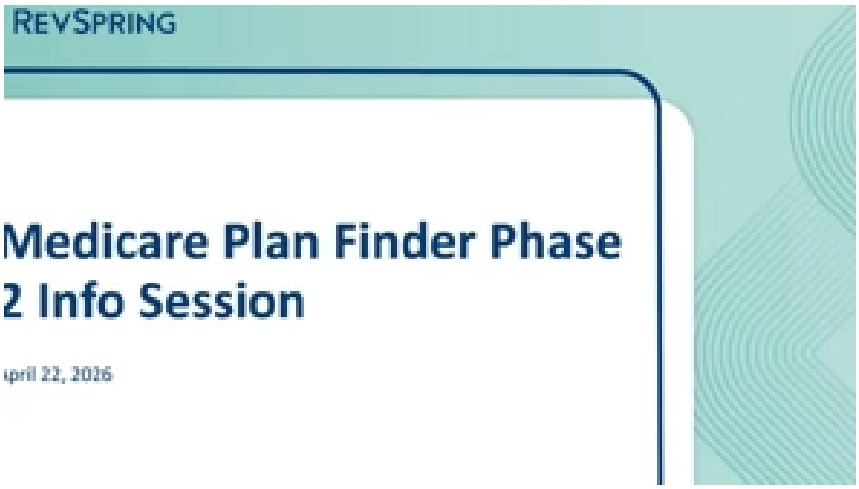

Immediate Action Items

To ensure your organization is included in the initial implementation wave, please complete the following:

1. **Submit Primary Contacts (Due May 5, 2026):** Please identify and send the names and emails of your **Primary Technical Contact** and **Business Contact** for this project to your Customer Success Partner.

2. **Confirm Participation (Due May 5, 2026):** Formally confirm your organization's intent to participate in Wave 1 by confirming with your Customer Success Partner.
3. **Submit Network Crosswalk File (Due May 15, 2026):** Submit a pipe-delimited CSV containing your NetworkCode, MedicareContractID, MedicarePlanID, SegmentID, and Plan Year (2027). Specs found here. Note: these are the same specs for Phase I.

Watch the April 22nd information session recording below and access the deck!
